(Rantoul, IL | February 11, 2021) – OSF HealthCare is pleased to continue to grow health care delivery options in communities where we have been called to serve, with the announcement of a new OSF OnCall Urgent Care location at 841 Broadmeadow Road in Rantoul, Illinois. The new location is set to open to patients in June of 2021.

OSF OnCall Urgent Care facilities build on current primary care services offered through OSF HealthCare. They are in convenient locations near neighborhoods and shopping, areas where, historically, health care providers have not been located. The more modern setting has the feel of a lounge area rather than a traditional doctor’s office and offers greater ease of access to care.

“OSF OnCall Urgent Care embraces a modern urgent care concept. It is designed for patients who want high-quality care quickly, so that they can get on with their busy lives,” said Brandi Clark, vice president, On Demand Services, OSF OnCall. “It’s something new and fresh that allows each individual to access care in a way that fits them in their health care journey. We aim to be where you live, work and play.”

“We are excited OSF HealthCare will be providing the citizens of Rantoul and the surrounding communities with this urgent care option,” remarked Rantoul Mayor Charles Smith. “Easy access to quality health care is imperative to a community’s well-being, physically and economically. We look forward to welcoming OSF to our community.”

Each OSF OnCall Urgent Care is staffed by experienced Care Guides, a radiology technologist and one advanced practice provider. The Care Guides stay with the patient throughout the visit. Providers deliver basic urgent care services such as treatment for cold, cough, flu, sprains, minor lacerations and fractures, sports physicals, urinary tract and upper respiratory infections and more. The sites will have x-ray and diagnostic laboratory services available.

OSF HealthCare is currently hiring for OSF OnCall Urgent Care positions. Please visit osfcareers.org to learn more and apply.

All OSF OnCall Urgent Care locations are open 365 days a year from 8 a.m. – 8 p.m. for patients of all ages. Walk-in, or schedule an appointment online through osfoncall.org. Insurance is accepted.
